

Vertical Milling machine Used Belt Drive Spindle

SP120-BT40-8K-A

Spindle Type S12A

Belt Type HTD2-5GT

Pull Tool Power 750±10% kgf

Number of Gears 68 Teeth
(According to Customers requirement)

Dynamic Balance G1.0mm/s

Bearing Lubrication Grease

Temp. Control within 18°C

Speed 8000 rpm

**Open the machine every day,
so that the speed of the spindle 0~6000 rpm about 10minutes, slowly accelerated.
The bearing slowly heating, so that the life of the spindle will be longer**

The manufacturer has the power to change the performance and appearance dimensions.
The change is made to the advanced method of the product.
